PROFIL

Hi, my name is Nandi. I'm 20 years old. I like to solve problems with code. I've been learning coding for 5 years. I taught myself more in depth on the internet. The technologies I love are JavaScript and Python. I'm working with React, Gatsby or Next JS. I have a strong desire to learn a programming more deeply. And I will always be ready to learn new things about it.

PROJECTS I'VE WORKED ON

WHATSAPP CLONE
React, Express, Socket.io, Styled-Components
I built the client with React JS and the server with Express JS. And for saving the database I used JSON files in the server side.

NETFLIX CLONE
React, TailwindCSS
This application runs on the client side. I used Axios for fetching the data. And used Styled-Components for styling.

MY WEBSITE PORTFOLIO
Next, Styled-Components
I made my personal website to save my progress and the projects I have worked on. I'm hosting it to the GitHub Page.

EDUCATION

SMK MUHAMMADIYAH TASIKMALAYA
Software Engineering, 2017-2020

- I built CoffeeShop's website for the final project.

INTEREST

- **Technologies**
- **Histories**
- **Philosophies**
- **Science**

SKILLS

HTML/CSS
Javascript
React
Styled-comp
Tailwind
Redux
Git/Github

And more...
